IN CONGRESS, JULY 4. 1776

The unanimous Declaration of the thirteen united States of America,

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another and to
assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's god entitle them a decent respect to the opinions of mankind requires that they
should declare the causes which impel them to the separation ——— We hold these truths to be self-evident that all men are created equal that they are endowed by their creator
with certain unalienable rights that among these are life & liberty and the pursuit of happiness ——— That to secure these rights governments are instituted among men deriving their
powers from the consent of the governed ——— That whenever any form of government becomes destructive of these ends it is the right of the people to alter
or abolish it and to institute new government laying its foundation on such principles and organizing its powers in such form as to them shall seem most likely to effect their safety & happiness ——— prudence indeed
will dictate that governments long established should not be changed for light and transient causes and accordingly all experience hath shewn that mankind are more disposed to suffer while evils are sufferable
than to right themselves by abolishing the forms to which they are accustomed ——— But when a long train of abuses & usurpations pursuing invariably the same object evinces a design to reduce them
under absolute despotism it is their right it is their duty to throw off such government & to provide new guards for their future security ——— such has been the patient sufferance of these colonies & such is now the necessity which constrains them to alter their former systems of government ——— the history of the present
King of Great Britain is a history of repeated injuries & usurpations all having in direct object the establishment of an absolute tyranny over these States ——— to prove this let facts be submitted to a candid
world ——— He has refused his assent to laws the most wholesome & necessary for the public good ——— He has forbidden his governors to pass laws of immediate
& pressing importance unless suspended in their operation till his assent should be obtained & when so suspended he has utterly neglected to attend to them ——— He has refused to pass other laws for the accommodation of large districts of people unless those people would relinquish the right of representation in the legislature a right inestimable to them & formidable to tyrants only ——— He has called together legislative bodies at places unusual uncomfortable & distant from the depository of their public records for the sole purpose of fatiguing them into
compliance with his measures ——— He has dissolved representative houses repeatedly for opposing with manly firmness his invasions on the rights of the people ——— He has refused for a long time after such dissolutions to cause others to be elected whereby the legislative powers incapable of annihilation have returned to the people at large for their exercise the state remaining in the mean time exposed to all the dangers of invasion from without & convulsions within ——— He has endeavored to prevent the population of these states for that purpose obstructing the laws for naturalization of foreigners refusing to pass others to encourage their migrations hither & raising the conditions of new appropriations of lands ——— He has obstructed the administration of justice by refusing his assent to laws for establishing judiciary powers ——— He has made judges dependent on his will alone for the tenure of their offices & the amount and payment of their salaries ——— He has erected a multitude of new offices & sent hither swarms of officers to harass our people & eat out their substance ——— He has kept among us in times of peace standing armies without the consent of our legislatures ——— He has affected to render the military independent of & superior to the civil power ——— He has combined with others to subject us to a jurisdiction foreign to our constitution & unacknowledged by our laws giving his assent to their pretended acts of legislation ——— for quartering large bodies of armed troops among us ——— for protecting them by a mock trial from punishment for any murders which they should commit on the inhabitants of these states ——— for cutting off our trade with all parts of the world ——— for imposing taxes on us without our consent ——— for depriving us in many cases of the benefits of trial by jury ——— for transporting us beyond seas to be tried for pretended offences ——— for abolishing the free system of English laws in a neighbouring province establishing therein an arbitrary government & enlarging its boundaries so as to render it at once an example & fit instrument for introducing the same absolute rule into these colonies ——— for taking away our charters abolishing our most valuable laws & altering fundamentally the forms of our governments ——— for suspending our own legislatures & declaring themselves invested with power to legislate for us in all cases whatsoever ——— He has abdicated government here by declaring us out of his protection & waging war against us ——— He has plundered our seas ravaged our coasts burnt our towns & destroyed the lives of our people ——— He is at this time transporting large armies of foreign mercenaries to compleat the works of death desolation & tyranny already begun with circumstances of cruelty & perfidy scarcely paralleled in the most barbarous ages & totally unworthy the head of a civilized nation ——— He has constrained our fellow citizens taken captive on the high seas to bear arms against their country to become the executioners of their friends & brethren or to fall themselves by their hands ——— He has excited domestic insurrections amongst us & has endeavored to bring on the inhabitants of our frontiers the merciless Indian savages whose known rule of warfare is an undistinguished destruction of all ages sexes & conditions of existence ——— In every stage of these oppressions we have petitioned for redress in the most humble terms our repeated petitions have been answered by repeated injury ——— A prince whose character is thus marked by every act which may define a tyrant is unfit to be the ruler of a people who mean to be free ——— Nor have we been wanting in attentions to our British brethren We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us ——— We have reminded them of the circumstances of our emigration & settlement here ——— We have appealed to their native justice & magnanimity & we have conjured them by the ties of our common kindred to disavow these usurpations which would inevitably interrupt our connections & correspondence ——— They too have been deaf to the voice of justice & of consanguinity ——— We must therefore acquiesce in the necessity which denounces our separation & hold them as we hold the rest of mankind enemies in war in peace friends

We therefore the Representatives of the united States of America in General Congress Assembled appealing to the supreme judge of the world for the rectitude of our intentions do in the name & by authority of the good people of these colonies solemnly publish & declare that these united colonies are & of right ought to be free & independent
states that they are absolved from all allegiance to the British crown & that all political connection between them & the state of Great Britain is & ought to be totally dissolved
& that as free & independent states they have full power to levy war conclude peace contract alliances establish commerce & to do all other acts & things which independent states may of right do ——— And for the support of this declaration with a firm reliance on the protection of divine Providence we mutually pledge to each other our lives
our fortunes & our sacred honor

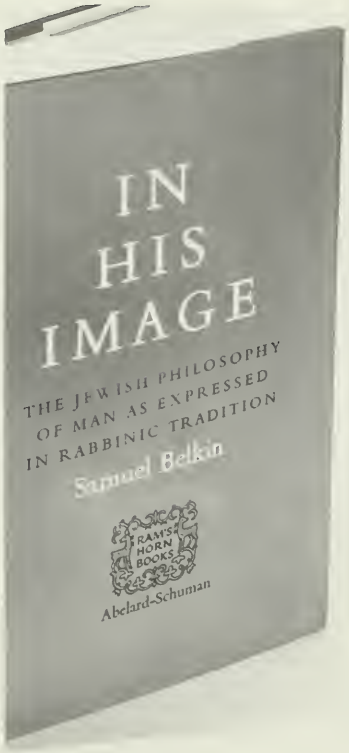
Dr. Samuel Belkin was a young man of thirty-one, only fourteen years in the United States, and hardly known to the Jewish Community at large, when he became president of Yeshiva. With a wisdom that seemed almost prophetic, a successor to Dr. Bernard Revel was found who would wear the mantle of leadership with a strength of character and vision of purpose that even his most ardent admirers could not have anticipated.

Dr. Belkin, after having studied at the world renowned YESHIVOT of Mir and Radin in Europe, arrived in the U.S. in 1929 at the age of 18. In 1935, Dr. Belkin, who six years earlier spoke only Yiddish, Hebrew, and Polish, came to Yeshiva College as instructor of Greek, and a year later became a ROSH YESHIVA in RIETS. Thus, in only 6 years, he had mastered the English language, gone through college, received a Ph.D. from Brown University, was elected to Phi Beta Kappa, and was awarded an honorary fellowship at Brown University. Most important, however, a great scholar was now brought to Yeshiva College and R.I.E.T.S.

Following the death of Yeshiva's first president, Dr. Bernard Revel, Dr. Belkin was appointed a member of the Executive Committee of Yeshiva College and Dean of Rabbi Isac Elchanan Theological Seminary. In May 1941 he became president of Yeshiva University.



In addition to his profound scholarly contributions in his major interest areas, Dr. Belkin demonstrated marked administrative ability, tireless energy and unusual leadership qualities. He was able to relate to his students with warmth and compassion. Concerned with each young man, he provided help to those who needed it, visited them when they were sick, fed them at his home, and worried about their needs. In return, his students revered him, confided in him, and sought his advice and approbation. In addition to delivering his regular shiur, which was a marvel of logical exposition, incisive reasoning, and broad scholarship, and writing his many scholarly articles and book, Dr. Belkin, upon assuming the presidency, gave himself completely to blueprinting an expansion of the Yeshiva.

The critical years immediately following his assumption of office were characterized by the agony of being aware of the terrible tragedy of the European holocaust, and the annihilation of Jewish Centers of learning.

Dr. Belkin was determined that RIETS and Yeshiva College would carry the American Orthodox Jew to his complete educational fulfillment. Dr. Belkin planned that under Yeshiva's auspices men and women would be able to enter every career and profession without losing a jot of their Jewishness. Education, social work, medicine, and the sciences, fields where quotas on Jewish admissions or other difficulties had severely limited the Orthodox Jewish student, would now be opened to them. In short, Dr. Belkin projected a blueprint for a broad and encompassing university program.

Dr. Belkin's plan was realized when in 1945, the necessary foundation for the program was achieved when Yeshiva was elevated to university status, thus distinguished it as the first Jewish university in America. The institution also made significant advances in other areas as well. In 1954, Dr. Belkin was directly responsible for the establishment of Stern College, America's first liberal arts college for women under Jewish auspices. In 1955, one year after Stern was founded, Dr. Belkin opened the Albert Einstein College of Medicine. Other schools founded under Dr. Belkin's administration are graduate schools in physical and social sciences, humanities, and social work.

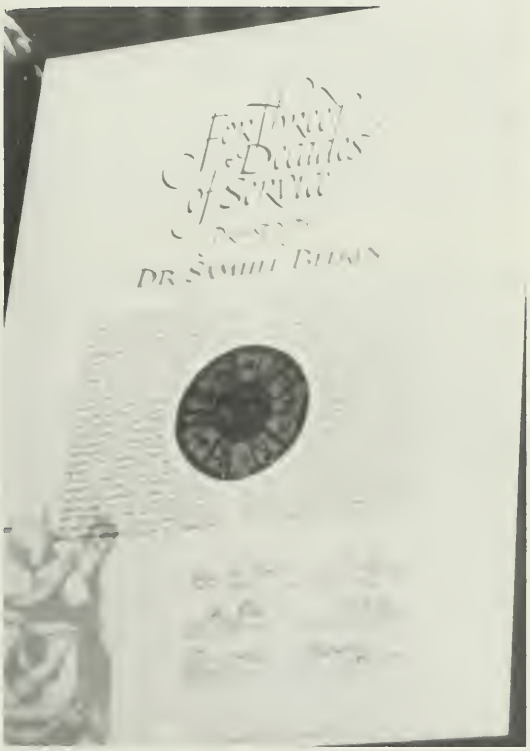
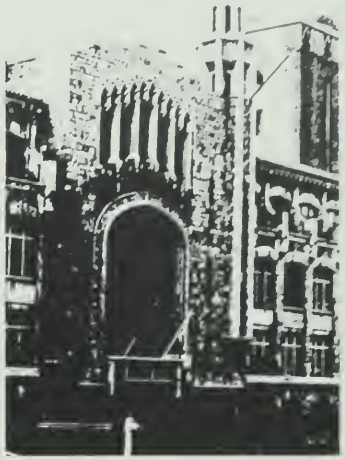
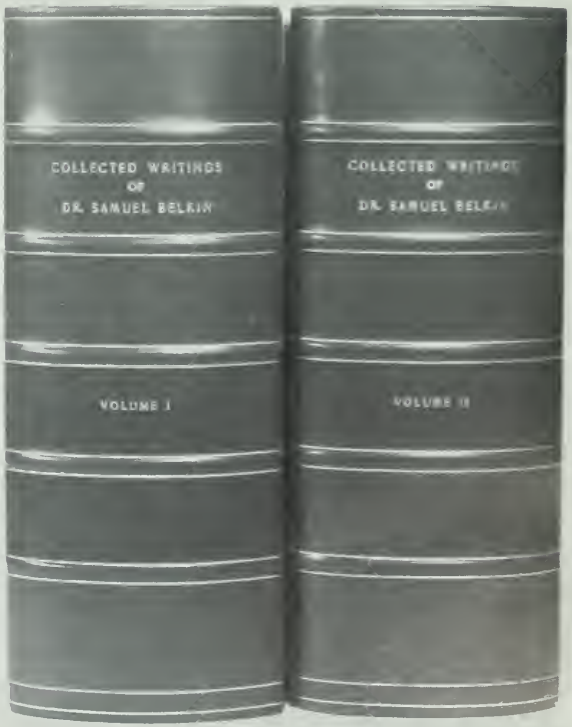
OF EDUCATION



In the post thirty-two yeors, Yeshiva has grown from a small college complex with an enrollment of 850 students to an enrollment of over 7,000 students. Yeshiva's single building in Washington Heights has evolved into four major campuses within the Bronx and Manhatten.





Through Dr. Belkin's tireless energy and unusual leadership qualities, Yeshiva has made, and continues to make, a significant contribution to American education and culture as a whole. But its dedication to Orthodoxy — to maximum Jewish commitment and to maximum Jewish religious values — is its principal source of strength and hope for its future.

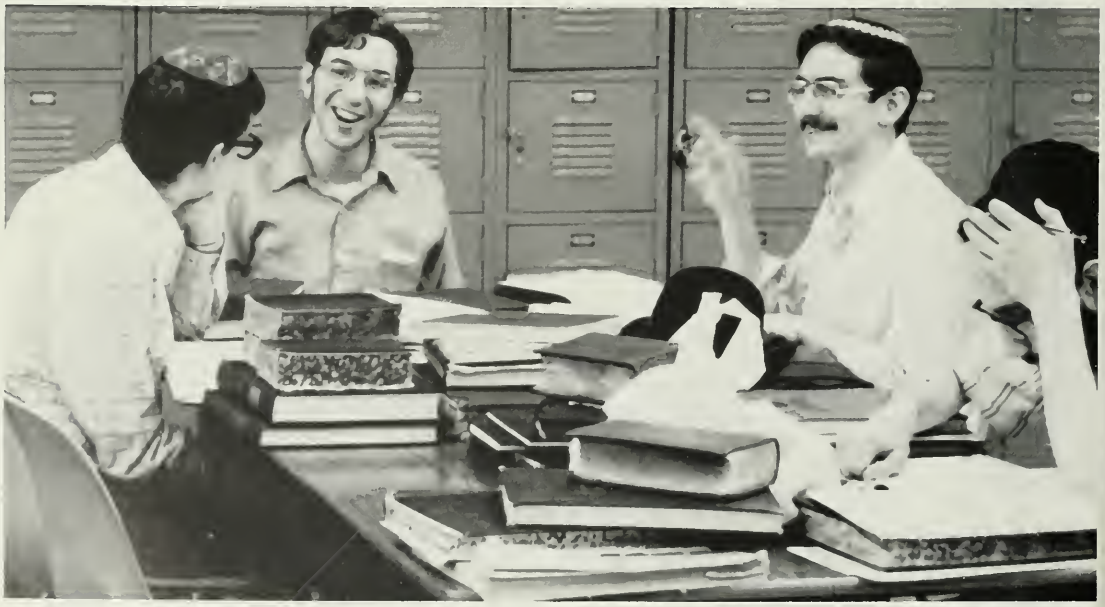
As we depart from Yeshiva University to pursue our careers, we can all begin to reflect on our experiences. Each of our experiences has no doubt been diverse, some leaving a greater impact on us than others. Still, of primary importance, there exists a "CHUT HAMESHULASH,"



an unbreakable chain which binds us together and has given us a reason to feel proud of having attended Yeshiva. The magnetic force of a Torah education has imbued within us a spirit and feeling of accomplishment

of having been involved for four years in a religious experience. Though the particulars of our "LIMUD" may eventually be forgotten, the overall impact of these religious experiences give us a beacon to eventually sustain us as Torah Jews while pursuing our goals in life.

A spark has recently been ignited and kindled in the hearts of every Yeshiva student. The "Beit Hamidrash" is constantly filled, both in the morning and at night, with hundreds of dedicated Yeshiva College students. This renewed faith has partially emerged from the inspiring force of two recent "Milchamot" in Eretz Yisroel.

As Jews all over the world face situations which seem more and more impossible, our faith and trust in HASHEM increases. Jewish people all over have realized that our only hope to survival is with HASHEM. There is, therefore, no longer a feeling of mockery for the "Masmid," (the diligent student, not the yearbook) but one of respect and admiration. Learning is an experience that we all realize will never leave us. This foundation of Torah knowledge inculcated within us during college has imbued in us a spiritual and intellectual strength which will help us withstand the influence of time and which will bear fruit in a generation devoted to the traditions and ideals of our priceless heritage.

Phillip Lieberman Memorial Award
Class Of 1976

SPO

The Yeshiva sports scene in 1975-'76 saw the same old story: winning wrestling and fencing teams, and a losing basketball team, not to mention the usual intramural excitement.

Basketball did have its bright spots: the Macabees came in second place in the Manhattanville Tourney, and Rob Rosenbloom was named MVP. Paul Merlis was at his best this year leading the nation's small college ballplayers in field goal percentage. Bruce Wenig tied a 22-year old Y.U. record by gaining 15 assists against N.J.I.T. Paul was named to the All-Knick Conference second team and Bruce and Rosey received honorable mention.

This year's fencers were better than their 7-3 record indicates, having lost a couple of heartbreakers this season. Morris Mandel, David Brusowankin, and Marc Felberbaum went to the NCAA. Although our guys did not make it to the semi-finals, Y.U. as a team accumulated enough points to place ahead of some of the top "athletic factories" in the country.

RTS

Wrestling had an easy 9-match schedule and piled up their usual winning record. Knowing that the fans no longer get excited by mere victories, the gropplers proceeded to bring home the first-place trophy of the Metropolitan J.V. Tourney. Mitch Merlis led the team (8-1, 13-1 including tourneys). The seniors, Jerry, Rick, Marty, and Jojo, all wrestled well.

The basketball and hockey 76'ers (known this year as the seniors) did not bring home any trophies. In basketball, the Seniors won the spring term title, but lost to the Sophs in the championship game. Dave Beren led the team in most categories. The hockey team started slow and ended slow. That's what happens when the team's nucleus goes to Hebrew U. for a year.

All three varsity squads will be hurt badly by graduation '76, and 1976-'77 will be a year of rebuilding. As for intramurals, the Class of '76 will be playing them in Med, Dent, or Law schools next year.

IN CONGRESS, JULY 4, 1776

The unanimous Declaration of the thirteen united States of America,

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another and to
assume among the powers of the earth the separate and equal station to which the Laws of Nature and of Nature's God entitle them a decent respect to the opinions of mankind requires that they
should declare the causes which impel them to the separation. We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator
with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness — That to secure these rights, Governments are instituted among men, deriving their just
powers from the consent of the governed — That whenever any form of government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new
government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their Safety & Happiness. Prudence indeed
will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while
evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object
evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great
Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid
world. — He has refused his Assent to Laws, the most wholesome and necessary for the public good. — He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them. — He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only. — He has called together Legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures. — He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people. He has refused for a long time after such dissolutions, to cause others to be elected, whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without and convulsions within. He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands. He has obstructed the Administration of Justice by refusing his Assent to Laws for establishing Judiciary powers. — He has made Judges dependent on his Will alone for the tenure of their offices, and the amount and payment of their salaries. — He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance. — He has kept among us, in times of peace, Standing Armies, without the Consent of our Legislatures. — He has affected to render the Military independent of and superior to the Civil power. He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their pretended Legislation, for quartering large bodies of armed troops among us; for protecting them by a mock Trial from punishment for any Murders which they should commit on the Inhabitants of these States; for cutting off our Trade with all parts of the world; for imposing Taxes on us without our Consent; for depriving us in many cases of the benefits of Trial by Jury; for transporting us beyond Seas to be tried for pretended offences; for abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies; for taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments; for suspending our own Legislatures, and declaring themselves invested with Power to legislate for us in all cases whatsoever. He has abdicated Government here, by declaring us out of his Protection and waging War against us. — He has plundered our Seas, ravaged our Coasts, burnt our Towns, and destroyed the lives of our People. — He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation. — He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands. — He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions. — In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free People. — Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends. —

We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be, Free and Independent States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. — And for the support of this Declaration, with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.
